CAREER SUMMARY

A Software Solutionary with over 10 years' experience who thrives in the NEW. Core values ranging from Creativity, Collaboration, Cutting Edge Technologies, and Consultancy. Wearing many hats to leverage a team's strengths to create the healthiest eco-systems for the code engaged. Adept in addressing needs whether it's the Architect's "BIG PICTURE", the Engineer's technical problem-solving, the Developer's coding or the Designer's vision. An innate ability to help harness solutions for companies looking for their own Happy Path Forward.

EXPERIENCE

SENIOR FRONT-END ENGINEER
EvoText Inc., Burlington, MA | Jan 2015 – Sep 2019

- Created a new front-end application from scratch for an award-winning digital curriculum and management product, effectively launching this software.
- Collaborated with designers and back-end developers providing a balanced knowledge of coding and design to realize objectives and improving processes.
- Led the initiative for a major new feature for an educational company serving over 1.4 million students and servicing over 40 of the largest school districts in the United States.
  - o Steered the project managing expectations; communicating estimates and explanations with accuracy and precision.
  - o Oversaw from inception to finish the raw data flow to its final display.
- Accepted tasks beyond current skillset to research and engineer solutions that others considered outside their comfort zone.
- Adapted quickly to new technologies in working with multiple clients with diverse needs.

WEB DEVELOPER
The Princeton Review, Framingham, MA | Mar 2013 – Aug 2014

- Came aboard in the final push of a "rejuvenation" project coding 50+ pages to meet deadlines for the intended launch.
- Updated and created content for the launch of the internet component of the "Best 379 Colleges" book.
- Developed six last-minute campaigns, requiring 22 landing pages and hundreds of graphics while meeting the demands of a compressed timeframe achieving intended sales goals.
- Reengineered the web promotion process ensuring better quality, greater reliability, and visibility.
